

LOOP FAMILY

Social seating and togetherness

outsider
RETHINK URBAN SPACE

MY VISION

THE BIRTH OF LOOP

When I founded out-sider in the birth of LOOP I had a dream that one day we could have innovative urban furniture in new shapes and materials. An alternative to classic urban furniture with 4 steel legs and 6 wooden slats – but something better and different.

Through successful cooperation between out-sider and AART designers we formed the first product - and the mother of the family, LOOP Circle in 2007.

Throughout the years many new family members have followed and a complete configurable building system is a reality today. My dream came true.

THE DESIGNERS – AART DESIGNERS

AART DESIGNERS

is a Scandinavian design studio working closely with AART, an internationally acclaimed architectural practice based in Aarhus, Copenhagen, Oslo, and Stockholm. In 2007 AART teamed up with out-sider and designed LOOP, a piece of urban furniture as a part of Aarhus Festival. Inspired by traditional circular gathering points – the fireplace, thingstead, etc. The idea was to develop a piece of furniture that would invite people of all ages to meet, talk, or just have a break.

The result was a mobile unit with an intuitive shape, bright colour, and a welcoming warm, yet solid material. With its inviting, playful design, the original LOOP has been an instant success growing into a range of new products and colours. The LOOP series features a large number of modular elements providing infinite possibilities for creative, welcoming spaces and social interaction.

AART
Designers

LOOP FAMILY

DESIGN/APPEARANCE

- Happy and rounded shapes
- Module based – many combinations
- 16 modules and 13 colours
- Danish design

USAGE

- Social interaction between kids, young people, and adults
- Informal rest and stay
- Outdoor and indoor
- Temporary and moveable – or fixed to the ground/floor

APPLICATION

- Child safe – no sharp edges
- No maintenance – only cleaning

PRODUCTION & ENVIRONMENT

- Danish production
- Long lifespan and durable materials

TÜV

Approved as playground equipment according to EN1176.
[Except LOOP Cone].

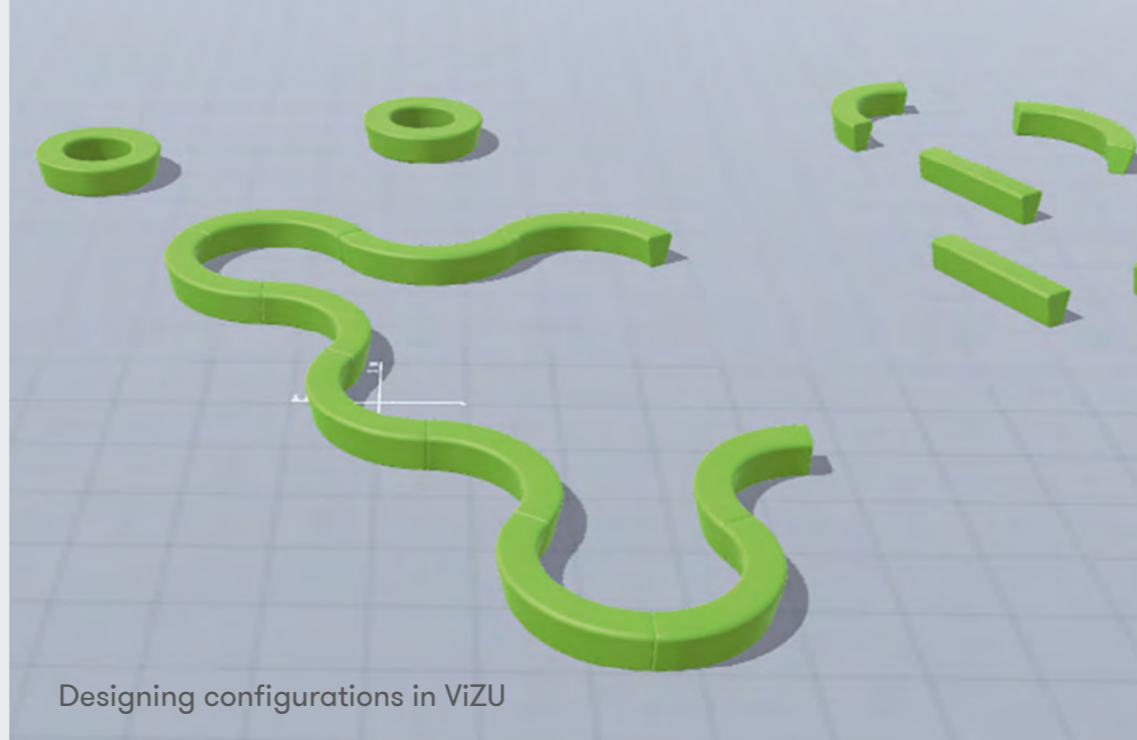

SUITABLE FOR RECYCLING

LOOP Family is made in PE 04 (specified Polyethylen code #4).

100% RECYCLED
LOOP is also available in a 100% recycled version: 85% of the material is made of production waste and the remaining 15% is derived from plastic bags.

100% RECYCLABLE

ENVIRONMENTAL ASPECT

To meet the highest standards out-sider's products are made in Denmark. We aim for local production and low impact on the environment in terms of transport.

PE MATERIAL & SURFACE

LOOP products are made of 100% recyclable polyethylene (PE). With an estimated lifespan of up to 30 years, out-sider's PE products can be incinerated or fully recycled in the production and molding of new PE products.

PE is well suited for hard use and outdoor areas. This material requires limited maintenance, it will stay fresh for many years. All surfaces are dirt-repellent as our product molds are treated with Teflon.

TABLE, LIGHT & BACKREST

ACCESSORIES FOR CIRCLE

CIRCLE #135 + CONE BACKREST #169

TABLE

Table for Circle. Table adds a new set of functions, creating a small, colourful bench-and-table set.

Mounting: Free-standing, in-ground or surface mounting w. flange. Brackets are mounted on the product.

CONE BACKREST

Cone works as a backrest when positioned in the middle of Circle. A plant can be placed in the center of Cone - or a top plate can cover the top. B13 assembles Circle and Cone Backrest. Cone can be filled with water or sand.

CIRCLE LIGHT

Bench with integrated LED-light. Circle Light provides ambient light in the dark. Mounting: B2 and B3 brackets for ground or surface mounting.

Please note: Circle is not included for Table or Backrest - it needs to be ordered separately.

ARC #137

ARC #137

ARC #137

ARC, CORNER & LINE

THE BUILDING SYSTEM

The 3 modules can be designed to work in lots of combinations of social seating. Squares, triangles, circles, curving snake etc. can be formed, used as a playfield, seating, sandbox, etc. The modules can also be used independently.

ARC

The curved shape. 3 x Arc makes a circle Ø2.70m. 3 x Arc and 3 x Line makes a triangle. Several Arcs makes a snake.

CORNER

The 90 degrees corner shape. 4 modules make a square. Combine Line with Corner to make a large playfield.

LINE

The straight shape. Can be combined with Arc and Corner.

ARMREST

Possible to place armrest between modules.

ASSEMBLING & MOUNTING

The modules are assembled with B4 brackets. B2, B3, B5, B6 brackets for ground or surface mounting. Filled with water or sand, if mounting is not possible or wanted. Except Line which cannot stand alone unfastened or filled with water/sand.

PLATEAU

The vision

I had a vision - a pretty big one back in 2016.

It was clear and simple: to redesign elements of urban space in terms of social interaction, usability, sustainability, and materials, and to top it all, integration of technology to improve lives of people in urban environments.

In collaboration with Holscher Design, completely new products were created, all based on the same DNA and philosophy with a simple but distinctive design.

The PLATEAU family is a reality. My dream came true.

Ib Mogensen
Founder & CEO
out-sider a/s

HOLSCHER DESIGN

Holscher Design is one of Scandinavia's most recognized, and award-winning design studios, with more than 25 years of experience. out-sider's collaboration with Holscher Design began with a competition concerning the development of radical new table/bench set for public spaces, and Holscher's winning proposal - **PLATEAU** - was chosen. The design has iconic and graphic qualities, while being a coherent, innovative piece of furniture with many seats - inviting people to interact with each other. Holscher's intention was to create a product family, and we now welcome the **new** family members.

PLATEAU

Social, Simple, Smart, Sustainable

PLATEAU takes a new, modern approach to urban seating. While inviting people to socialize in flexible ways, this Scandinavian design fits into any type of architecture with its soft, human shapes and clean, nordic color palette.

Designed, cut and crafted from one piece of long-lasting paper based HPL (compact laminate made of 65% surplus wood), PLATEAU family is a timeless, sustainable solution to urban seating.

With the smart functionality of PLATEAU Sun-Hub, people can work, stay charged, connected, or enjoy music with solar powered light in the dark.

ACCESSORIES

PLATEAU

Made from 65% surplus Norwegian wood

We source the raw materials from vendors certified according to the standards FSC® or PEFC. These standards ensure that the wood is produced in compliance with internationally applicable rules for sustainable forestry.

Surplus material - compact laminate

With sustainability in mind, our compact laminate (HPL) panels are made from 65% surplus wood from saw-mills in Norway, all of which are FSC® and PEFC approved.

For our compact laminate products, we use 50 sheets of paper to create a 12 mm panel. The paper sheets are compressed with a binder to seal the material, making it waterproof, termite resistant, and easy to clean. The seal also makes it one of the most resistant materials to bacteria.

**The PLATEAU series is built for longevity.
From the factory, product lifetime is
estimated for up to 50 years**

The material is originally developed as exterior cladding for buildings, and exhibits impressive outdoor performance. The panel is robust, has a sleek, exclusive look.

After its service cycle has ended, the panel can be disposed of thermally without harmful emissions or toxins. Our panels are also Greenguard and REACH certified, as it does not emit harmful toxins or gases during its lifetime, and as such, it is suitable for indoor use as well.

The frame is made of galvanized steel further emphasizing Plateau's robustness, while preserving an elegant and clean look.

It is highly UV- and weather-resistant, with solid mechanical quality and durability. Plateau's materials require no maintenance other than soap and water. The HPL panels have a smooth surface, pleasant to the touch – in winter it's not cold, and in summer it's not scalding hot. HPL comes in a variety of colour options.

PICNIC O

The picnic table that seats more

#NEWURBANCLASSIC #INVITINGSHAPE #COLOUR #SOCIALIZE

PICNIC O

Plateau O rethinks tradition! A graphic design expression and appealing picnic table with an encircling bench makes up this spacious piece of outdoor furniture, shaped for socialization and inclusion. This new urban classic has room for 10-12 people and comes in different models to ensure easy access and fulfill the needs of all kinds of users (e.g. wheelchair access, see Plateau I).

PICNIC L + I

Easy access for all

#MANYSEATS #INVITINGSHAPE #DANISHDESIGN #EASYACCESS

PICNIC L + I

A graphic design expression and appealing picnic table with an encircling bench makes up this spacious piece of outdoor furniture, shaped for socialization and inclusion. **Plateau L** models' design has an improved sense of inclusion around the entire picnic table. It offers two extra, 'floating' seats and flexible access, and seats 8-10 people. **Plateau I** model is designed with a clear purpose; to ensure easy access and fulfill the needs of all-aged users, including elderly and wheelchair users. It seats 6-8 people. Both models can be extended with backrest.

PICNIC ROUND

Join the party!

#LIMITLESSDESIGN #INVITINGSHAPE #COLOUR #EASYACCESS

PICNIC ROUND

Get together around the round Plateau Picnic! This picnic table invites everyone to the party and seats four to six people. Plateau Picnic Round is simple, limitless design, and smart functionalities such as easy access, space for a wheelchair, and the option of placing a light, parasol or similar in the middle of the table.

PICNIC STREET

Less space, room for more

#OPTIMIZINGSPACE #URBANDESIGN #SOCIAL #MODERNLIVING

PICNIC STREET

Need to seat six people, while optimizing the space? Plateau Picnic Street is born urban and designed for modern living – new ways working, new ways of coming together! It is easy to fit in and easy to access with its slim design and organic, rounded ends. Plateau Picnic Street is slim and crafted with a cool one-flow frame consisting of a continuous steel tube that completes the design in a thrilling, yet simple shape. Plateau Picnic Street allows you to mount a light source at the end.

PICNIC DUO

The single design for two

#MEETINGPOINT #SLIMDESIGN #ONEFLOWFRAME #HPL

PICNIC DUO

Looking for one, single design to fit in two people? Plateau Picnic Duo is the intimate member of the Plateau family. It is flexible in use as an informal work spot or simply a cozy meeting point for two. Plateau Picnic Duo is slim and crafted with a cool one-flow frame consisting of a continuous steel tube that completes the design in a thrilling, yet simple shape.

BENCH

Stretching the space and the functionality

#RETHINKINGTRADITION #URBANDESIGN #SIDETABLE #SPACEFORMANY

BENCH

Building on the original design of Plateau Picnic with its graphic design expression and appeal, Plateau Bench stretches over 2,8 meters, offering room for more (5-6 people), seated in a row, or flexibility to group together at each end. The Plateau Bench is suitable for all age groups, and as an option, you can mount one or two of the matching Plateau side-tables, adding even more functionality.

PLINTH + WALL BENCH

Don't just have a seat, socialize!

#RETHINKINGTRADITION #URBANDESIGN #SIDETABLE #SPACEFORMANY

PLINTH + WALL BENCH

Plateau Plinth and Wall Bench rethinks tradition! A graphic design expression and appealing seating solution, modern, yet strongly rooted in the Scandinavian design tradition. The thought-through rounded ends empower conversation across the entire group of people - excluding no one - whether that being 5-6 people seated in a row, or a smaller group at each end of the furniture. You can mount one or two matching Plateau side-tables, adding even more functionality. Standing or mounted on a wall.

SEAT B-F

Have a seat, anywhere

#SOCIAL #URBANDESIGN #EXTENDEDSEATING #SLIM

SEAT B-F

Plateau Seat is a bench/seat boiled into the simplest possible shape! Easy to fit in – and easy to access – with its slim design and organic, rounded ends, it creates a pleasant contrast in the often square, urban structures and spaces. Plateau Seats comes in various lengths seating two to four people, with or without an integrated, smart table or light source, and offers endless lineup and fixation options.

SEAT

Have a seat, anywhere

#INVITINGPEOPLE #ADD-ONSEATS #EASY #SLIM

SEAT

Plateau Seat is changing and extending the seating opportunities in the urban space by taking advantage of the existing architecture. These graphically designed seating spots offer endless seating possibilities on existing staircases, concrete plinths, etc. Furthermore, you have the option add Plateau side tables. With the different lengths and colors, you can create an inviting environment.

CITY CHAIR

An urban classic is born

#URBANCLASSIC #DANISHDESIGN #FLEXIBLE #SOCIALIZE

CITY CHAIR

Experience complete flexibility with Plateau City Chair! Designed to seat one person, and ideal for setting up endless formations, inviting more people to socialize together in multiple ways. Create a cozy space for two, connect the chairs together in a straight row, an arch or snake to fit your space, and customize with logo and brand name.

TABLE

One circle, four seats

#SOCIAL #OUTDOOR #COLOUR #LESS IS MORE

TABLE

Keep it simple! Plateau Table Round is an essential member of the Plateau outdoor furniture family. With a strong, less-is-more design with thought-through round shapes, it offers a perfect fit with four Plateau City Chairs.

POINT SUN

Light up the darkness

#CO2NEUTRAL #SOLARPOWER #AMBIENTLIGHT #SUSTAINABLE

POINT SUN

Add light to Plateau by changing the steel discs with Point Sun. Ambient and reading light in the evening with no cables and no installation required. Point Sun is 100% solar powered, resistant to weather conditions, intelligently controlled and CO2-neutral.

SUNHUB

Power to the people

#SOCIAL #SOLARPOWER #SMART #SUSTAINABLE

SUNHUB

is 100% solar-powered, weather-resistant, intelligently controlled and CO2 neutral. It allows you to listen to music via Bluetooth and built-in speakers, charge your phone with cable or wireless and turn on the table's light in the evening.

SUNHUB

Sunhub elevates Plateau Picnic to another level. SunHub adds a third 'plateau' to the furniture, enabling new technical features and new application possibilities. With SunHub, Plateau Picnic becomes more than just a piece of furniture, it becomes a social 'hub'.
